Terrible Blood Poison, suffered all a man could suffer and live, face and body covered with awful sores. Used the Cuticura Remedies ten weeks and practically cured. Remarkable case.

I contracted a terrible blood poisoning a year ago. I doctored with two good physicians, neither of whom did me any good. I suffered all a man can suffer and live. Hearing of your Cuticura Remedies I concluded to try them, knowing if they did me no good they could make me no worse. I have been using them about ten weeks, and am most happy to say that I am almost rid of the awful sores that covered my face and body. My face was as bad, if not worse, than that of Miss Boynton, spoken of in your book, and I would say to any one in the same condition, to use Cuticura and they will surely be cured. You may use this letter in the interests of suffering humanity.

E. W. REYNOLDS, Ashland, O.

Covered with Running Sores 17 Years. I have been troubled with a skin and scalp disease 17 years. My head at times was so running sore, and my body was covered with them as large as a half dollar. I tried a great many remedies without effect until I tried the Cuticura Remedies, and am thankful to state that after two months of their use I am entirely cured. I feel it my duty to you and the public to state the above case. **L. R. McDONALD, Cambridge, N.J.**

TELEGRAPHIC.

(By Special Telegraph.)

Ottawa, May 15.—Fr. Hill now confesses that his son-in-law, H. B. Donlass, committed suicide. He says he concealed the fact, fearing the effect of the shock which the knowledge of the crime would bring to his daughter.

Montreal, May 14.—Judge Lorange, this morning, gave judgment in the motion of the attorney for the Jesuits to stake out certain portions in the Mail's plea. He ordered that all the plea be struck out except that relating to the constitutionality of the Act, which should be allowed to go ahead. This is quite a victory for the M.J., as their principal object was to secure the right to fight the constitutionality of the Act, and this they gained. The whole is now like y to go to the Privy Council on this one point.

London, May 14.—Wm. O'Brien, M.P., has obtained a writ against Lord Salisbury on the charge of libel. In a speech at Watford the Premier accused Mr. O'Brien of advocating the murder and robbery of men taking farms from which the tenants had been evicted. It is for this speech the action is taken. The solicitors for Lord Salisbury have accepted the libel writ obtained by O'Brien. The trial will take place at Liverpool.

London, May 15.—The Alberta Exploration Co. has been organized, with a registered capital of £25,000. The object is to obtain powers to construct a railway. Davies, of North Wales, and J. Evans, of Toronto, are among the subscribers.

At today's session of the Parnell Commission, Father Egan, from Loughrea, County Galway, testified that the leading men of Loughrea belonged to the National League. No serious crimes had been committed in that district from the formation of the Loughrea branch of the League to cause its suppression by the Government, with the single exception of the murder of a policeman. This murder was condemned by a majority of the League, and the perpetrator of the crime denounced from the altar.

New York, May 15.—Lord Lansdale arrived here this morning from Montreal. He was only accompanied by a servant. He was subsequently joined by his wife. The Earl will sail for England on the Celtic in a few days.

Winnipeg, May 16.—Dr. Webb and party did not make any stay in the city yesterday, but proceeded to Vancouver immediately after their arrival. Mr. W. H. Webb, vice-president, and Mr. Flagg, general superintendent of the Wagner Car Co., returned last evening and left for New York via the C. P. R., having been recalled by telegram. Mr. G. Bird, the champion pistol shot of America, who is one of Dr. Webb's guests, is considerably disappointed with the trip so far. No one has come forward to challenge him to a match with the pistol. He carries four cases of the finest weapons and 300 pounds of cartridges.

The Compton case rendered necessary by the death of the late J. H. Pope, Minister of Railways, took place today. Rufus H. Pope, Conservative, being elected by 850 majority. His opponent was T. B. Munroe, Liberal and Prohibitionist.

DUCK LAKE.

Lettuce and onions have been raised in open air this spring for use. Can you beat that in Prince Albert?

Mr. Diehl, of Carlton, has 120 lambs. He only lost three this spring.

The Rev. Pere Domman, inspector of Roman Catholic schools, paid an official visit here this week. He reports great progress since his last visit.

Ambrose Fisher, our popular postmaster, has been laid up for some days.

Last week a young French half-breed, Calixte Lafontaine, of Batouche, undertook to open a loaded cartridge with a file, when the cartridge exploded blowing the greater part of his hand off. Information set in and he died on Thursday.

The game keepers, whoever they are, could make a very profitable haul by visiting this place. Every day one hears nothing but the discharge of guns. Some action should be taken to prevent this wholesale slaughter of ducks.

There are no passengers on the incoming mail.

Mr. and Mrs. McNeil will reach here on Monday next. They will reside at the agency.

F. C. Orr returned a few days ago from a trip to his old home, and brought his brother back with him. Mr. Orr says business is no worse here than in many larger places east.

It seems we are not to have a day set apart specially for the planting of trees. A number of our citizens are not waiting for Arbor Day, but have put in a great many trees already.

The baseball players are out in great numbers every evening, and have a good practice. Quite a number of ladies have expressed the practice. The boys intend having a match on the afternoon of the 24th.

We had a few degrees of frost almost every night this week, but during the day the mercury would run up to 60 and 70 degrees in the shade. Everything is growing splendidly and the prairie is dotted over with blue violets and strawberry blossoms.

FRIDAY, MAY 17, 1889.

It is reported on good authority that His Honor the Lieut. Governor will visit Prince Albert officially in the near future. What is being done or going to be done towards giving him a proper reception? So far we have not heard of any steps being taken in that direction, and we think it is about time something was being done. It will be a lasting disgrace to our town if we do not receive the representative of Her Majesty, in a manner suitable to the position he occupies. It is not our province to suggest the form that the reception take, but we think that it should be a public one, and entirely free from any connection with party. And furthermore we think that Mr. Royal is entitled to a hearty reception from the people of this place. Some objection has been taken to him on account of his action with regard to the liquor question, but we believe that he has done more towards a solution of that problem than all the temperance cranks in Canada, and that the day is not far distant when he will get due credit from those who now find fault with him in this particular. But leaving all such questions aside, he comes here as representing our sovereign and it behooves us as loyal subjects to receive him in a manner worthy of British subjects. Let our city fathers take the initiative and we feel confident that they will receive the hearty co-operation of the entire community, and that the necessary expense incurred will not be considered as money thrown away. Nothing will be lost by giving Mr. Royal an enthusiastic reception, while it, on the other hand, we believe, would be greatly to our advantage. We should spare no pains to show him the settlement and make known to him its resources and our own wants and requirements.

The following is taken from the Edmonton Bulletin, Liberal, and speaks for itself:—

"The Prince Albert people are seriously exercised about the failure to secure railway communication for their district up to the present time, the prospects being no better for an indefinite period in the future. A mass meeting of the citizens was held in the Town Hall on April 4th at which very strong speeches were made condemning the action of the Gov-

ernment and a telegram sent to the member for the district, Mr. Macdowall, at Ottawa, demanding an immediate answer as to whether railroad communication is to be given at once or not. The Times says that but one opinion was expressed at the meeting, and that was that something must be done by the Government, and that immediately, to give the people confidence in the future prosperity of the district, and that capital expended will not be lost. 'At present things look very gloomy and every one is in a state of despondency, and some are already at the door of starvation, to whom relief must come and that very soon. Many of our farmers are in a very deplorable state, having no seed grain and very little of the necessities for the sustenance of life. This state of affairs cannot long exist. What is to be done? With all due modesty the Bulletin ventures to suggest that the first move for the Prince Albert people to make towards getting a railway should be to take a tumble to themselves. They bluster and exaggerate the difficulties under which they labor, with a view apparently of awakening the fear of the politicians and the sympathy of capitalists in their behalf. A community that has shown itself in the past to be so easily humbugged—not to say purchased—as that of Prince Albert cannot with an election two or three years distant expect to scare anyone badly with mere bluster, while it may be taken as a fixed fact that capital is not drawn to investment by walls of financial ruin. The wilder and more ridiculous the bluster the less attention will be paid to it, for its very wildness infallibly marks the agitators as lacking either in judgment or sincerity, in either of which cases they are not dangerous, while the louder the walls of financial despair the more widely capital will shun the district and all connected with it. An industrious, thrifty and enterprising community is the greatest possible attraction to capital. A well built, well laid out, clean kept town, well cultivated farms, neat fences, full granaries and fat stock are what the people of Prince Albert need more than anything else to attract a railway. They can have all these by their own exertions and if they have them they can afford to wait the coming of a railway with all calmness, prepared to make the very most out of it when it does come."

Prince Albert post office has been made a customs port of entry for postal matter. We were a little previous last week in announcing the Masonic concert for the 24th. The date has not been definitely set yet.

Several of our local nimrods took advantage of the last day of the spring shooting. Many of the parties brought home heavy bags, while others were not so fortunate. The game guardians are required now to protect game, and more especially to have parties punished who take eggs. The guardians cannot be too strict regarding the game laws.

He was picked up and taken to the Marine Hospital where he died. Major Short was one of the most highly respected officers in the battery. Lachlan Kennedy, D. L. S., left on Thursday by skiff for Battleford and Prince Albert.

The rate of assessment for this year in Edmonton school district has been struck at five mills or the dollar. In Belmont district it is five and one-half mills.

Yesterday was the last day of issue of rations by the police to destitute half breeds at Edmonton and St. Albert. Ammunition was given to each head of a family as a send off. The list was not more than half as large as last year. The heads of families receiving rations were compelled to work.

Owing to the lack of moisture, although the weather has been warm, trees are slow leaving out this spring. A peculiar thing is that frequently a clump of poplars or even a single willow in a large bunch is now seen to be fully in leaf while all around the buds on the trees and bushes have not even burst. The supposition is that the trees or clumps now in leaf are more favored with moisture at their roots than those that are more backward.

CALGARY.

From the *Herald*, May 1.

Large flocks of wild geese passed over town to the north this morning.

The pay car arrived here this morning to replenish the employees pockets.

As usual during the summer months Wm. Cullen will sell milk to town customers at a rate of twenty quarts for a dollar.

Insp. Burnett, V.S. of the N.W.M.P., who has been here for some time in connection with the purchase of re-mounts for the police, left this morning for Regina.

His Lordship the Bishop of Saskatchewan has accepted Mr. Bernard Barton, of Moose Jaw, as a candidate for holy orders in the diocese of Saskatchewan. Mr. Barton will study at Emmanuel College, Prince Albert, and will act as a lay reader at St. Andrew's, under the Ven. Archdeacon Mackay.

Mr. G.S. Davison, M.T.L., is on a visit to the capital, looking after the interests of his constituents, the Advisory Board being in session.

REGINA.

From the *Leader*, May 7.

Immigration Agent Stenshorn's record shows that forty-one immigrants arrived since last Tuesday. The majority have taken up land in the district.

Mr. D. W. Reidle, who was interested in the Strasburg colony here in 1885, has just returned from Europe with a party of one hundred Germans, whom he has settled at Langenburg, on the M. & N. W. Ry.

A fire started immediately behind Mr. Beach's stables on Friday during the high wind. Had it not been discovered in the nick of time, tens of thousands of dollars would have gone up in pretty quick time.

John Joseph Tate, a half-breed of the N. W. T., returned last week from the south, calling on The Leader as he passed through Regina. He came from Missouri, for which State he left two years ago to visit some of his relatives. On this side of the Coteau Mr. Tate came across a place where he saw signs of a band of domesticated cattle having wintered there. He judged they were cattle that had strayed from the north.

FORT MACLEOD.

From the *Gazette*, May 2.

The trees are all in leaf.

There were two desertions from the N. W. M. P. lately.

The arrangements for the cricket match between Macleod and Lethbridge have about been completed. The match will take place on the afternoon of the 23rd and morning of the 24th.

A mysterious outfit consisting of several men and teams came in from Calgary yesterday, and have proceeded, no one knows exactly where. They refused to answer questions as to their destination. It is supposed that they are on the way to Crow's Nest Pass, and that they are surveyors. Their business is as much a mystery as their destination.

The Regina Leader says it has the only office in the Territories capable of doing the Northwest printing. If the voracious editor of that paper took the trouble to inform himself of the truth, he would find he had been guilty of a gross misstatement. In the north the Battleford Herald could do the work, because it has done it before, and far better than any work the Leader has ever turned out. Further south we know of our own experience that there are at least four offices, two of them steam offices, which could do the work. That may be proved this year. — [If the Prince Albert Times could not do the work better we would dump the whole plant into the hellbox and fire the devil.]

MEDICINE HAT.

From the *Times*, May 4.

Work has been suspended at the coal shaft this week for the want of timber.

It is rumoured that Supt. Antrobus will go to Battleford to take charge of the N. W. M. P. post in that town.

Ben. Butler shot five wild turkeys at Tilley last week, the largest of which measured 7 ft. 2 in. from tip to tip and stood 5 ft. 8 in. It weighed when dressed 22 pounds.

Eight blue-jackets, two marines and one gunner from the Pacific squadron, were on the eastbound train this morning bound for "Old England." They were "invited home."

The corner stone of the general hospital is to be laid on the 24th. Would it not be a good idea to induce the Lethbridge baseball team to come here. Other sports could be added to the programme.

J. K. Barrett, inland revenue inspector, is registered at the American. He is on a tour of inspection.

The Rev. Dr. Sutherland, of Toronto, will leave for Japan shortly to inspect the Methodist Missions and organize a conference.

The volcano of Vesuvius is in an alarming state of eruption. Streams of lava are coursing down the mountain on the Pompeii side.

The Medical Board of Health decided to recommend a pension to Barney Hudgins, of Belleville, who served in the Northwest rebellion and contracted, while on duty, a cold which disables him.

Sir Donald Smith stated that his and Sir Geo. Stephen's joining the Board of the Manitoba road had no significance. He is ignorant of any intended arrangement between the St. P. M. & M. and C. P. R. to work against the N. P. R.

Two thoroughbred horses and a small thoroughbred bull belonging to H. West, of Ridgetown, have been seized by the customs. West endeavored to smuggle in the bull by concealing it with hay and is guilty of violating the quarantine laws.

On the Street farm, near Port Colborne, workmen dug up skulls, bones and arrow heads, supposed to be the remains of Indians who were killed in a fight around Sugar Loaf Hill some years ago, which is still talked about by some of the old settlers.

Principal Grant, of Kingston, Dr. Wilson, of St. George's, New York, and the Rev. E. W. Dobbs, brother in law of Sir Richard Cartright, sat on the platform in the Salvation Army barracks, at Kingston last week. They were applauded by thousands.

A disastrous fire occurred near Selkirk resulting in the destruction of 5,000 cords of wood and 12,000 ties. The C.P.R. telegraph office and poles were burned down, also a part of the railway track was damaged. The blaze originated in a bush fire and is still burning fiercely.

The much discussed question whether the American Duchesse of Marlborough would be received at Court, was happily settled by the presentation of that lady to the Queen at the Majestic drawing room lately. The presentation was made by the Dowager Duchesse of Marlborough.

The naval review at Spithead has been fixed for July 27th. The Queen will view the manoeuvres of the fleet from the deck of the royal yacht Victoria and Prince Albert, and the Emperor of Germany and his brother, Prince Henry, will witness the scene from the imperial yacht Hohenzollern.

The Liberal-Conservative Union Association, composed principally of Government employees, held a meeting at Ottawa and condemned the Government for giving undue patronage to French Canadians. They argued that it was almost a case of "no English-speaking men need apply." A delegation was appointed to wait upon Sir John and Sir Hector.

L. C. A. Cosgrain, insurance agent at Ottawa, waited on Police Court Clerk Lett this morning and asked that a summons be made out for Mayor Errett to appear to show cause for using insulting language. Cosgrain alleges that on Good Friday the Mayor deliberately called him an ass. He felt, he said, that his dignity had suffered from the imputation. The clerk promised to make out the necessary summons.

A stranger whom E. Mincher, Bible agent, of Berlin, was giving a ride, asked him if he would sell his horse. Mincher said "yes," stating the price. Upon reaching Birk's swamp, a mile from the village, the stranger said he would have the horse without pay, and pointed a pistol at Mincher's breast, he clutched it when it went off, the ball going through Mincher's hand. The scoundrel jumped from the conveyance and escaped into the swamp.

Three of the bodies of the Midland men drowned at Flat Point have been recovered, namely, Henry E. Jeffrey, Robert Little and James P. Anderson. The body of the fourth, Albert Meredith, has not yet been found. From the appearance of the bodies they died from exposure to the cold on the 30th April, after clinging to their capsized boat and trying to make the point. They managed to get their coats off and from all ap-

pearances made a terrible struggle to save their lives.

The Canadian carman, Ed. Hanlan, has recently been edifying the good people of the Tasmanian capital, by giving exhibitions of his prowess on the Derwent. In addition to this he has been delivering in Hobart on the art of rowing, reminiscences of the sliding-seat early "crab" catching, etc. After all it would be a most desirable arrangement if our colonial ex-champions—whether they be sarsenem, cricket, lacrosse, or football players—could earn a living on the platform after they have gone through their professional career. It would be much better than keeping low public houses, certainly.—Colonies and Index.

Paris was thrown into a fever of excitement on the 5th inst. by the report, which spread rapidly that President Carnot had been shot. As the President was leaving the palace of the Elysee, a stranger drew a pistol and pointing it directly at him fired. The man was immediately seized. M. Carnot quickly assured the crowd that he was not hurt. The man who did the shooting gave his name as Perrin, and stated that he had no desire to kill the President and showed the truth of his assertion by proving that he fired blank cartridge. He declared he had been punished unjustly, and his object in firing was solely to call attention to his grievances as he had been unable to obtain redress. The Bonapartists avowed at the affair, and assert that it was concocted by the President and his friends to win public sympathy with their clique as against the National party.
